## The Axopar 28 range awarded “Best of Boats 2015”!

15 maritime journalists from 14 different magazines in the jury with over 260 tested boats during 2015.

### **THE JURY’S COMMENTS ON THE AXOPAR 28 RANGE:**

“This agile and sporty boat from Finnish inventors, built in Poland, is based on a very light weight twin stepped deep-V hull that provides notable seaworthiness and a fun and safe ride. The Axopar 28 is easily trailerable and designed for single outboard engines up to 350 HP. The boat is remarkable in the way that it is offered in five versions based on the same hull ranging from an open version to a fully enclosed walkaround with Daycruiser aft cabin.”

According to the Best of Boats jury, a boat is “Best for Fun” if the boat is versatile for many kinds of watersports, adaptable to the needs of different crews and, of course, fun to drive with a direct connection to nature, water and power equally.

## The Axopar 28 range wins the prestigious “Motor Boat of The Year 2016” title!

This renowned award is judged on the annual sea trials of more than 70 boats by a panel of experienced boating journalists for the International magazine Motor Boat & Yachting.

### **THE JURY’S COMMENTS ON THE AXOPAR 28 RANGE:**

“A boat that has it all; searing performance, a fantastic hull, brilliant deck spaces, somewhere to sleep and looks to die for.”

“It’s a dayboat, weekender, sportsboat, watersports machine and a fast point-to-pointer rolled into one.”

## Axopar 28 - European Powerboat of the Year 2016 in the category up to 35 feet!

Also known as the “Oscars of Watersports“, the jury based their final evaluation on space, value for money, performance and innovation. The title is highly acknowledged, and awarded to the best five boats sold in Europe, in five different size categories.

### **COMMENTS FROM THE JURY:**

#### **Unique concept**

At the start of development of the Axopar 28, all preconceived ideas were called into question. “Each component was analysed in detail. The outcome was a unique modern design offering outstanding handling, maximum safety, conforming with all current standards and thanks to an industrial production-style process, a revolutionary low price.

#### **Array of surprises**

In the Cabin version, the bench seat can be converted into a double bed, while in the Aft Cabin version there are two additional fixed berths. A separate toilet compartment / stowage space is accessible from the forecabin, rounding off an array of surprises. The twin-stepped hull is said to ensure fantastic handling characteristics. Thanks to the broad walk-around and high railing, the boat’s occupants can feel secure at all times – even at top speeds exceeding 45 kn.
