DUTCH DESIGN

For DutchTenders, boating means enjoyment on the water. Every boat we make has the same combination of good handling characteristics, comfort, modern design and attractive pricing. Every new boat from DutchTenders is unexpected, but the designs remain recognisable and true to our philosophy.

OUR STANDARD

Every tender is already very complete with the standard equipment, which includes a Yanmar engine, hydraulic steering, an extensive stainless steel package, a lot of teak, comfortable cushions and navigation lighting. All boats have the CE safety certificate because like you, we demand a lot from our products.

ALWAYS TRAVEL IN STYLE

All our vessels are designed, engineered and tested by our experienced in-house naval architect to maintain our distinctive style as well as the excellent handling characteristics and quality.

We control the entire production process, from the raw materials to the finished boat. Production, assembly and customization are done at our shipyard in outside Amsterdam in The Netherlands. Only qualified tradespeople work on your boat in our production workshop, from designers to shipwrights and polyester finishers.

FLORIDA DELIVERY POSITIONS

We are now filling delivery positions for 2017. After a decade in Europe, we are now ready to satisfy the American boating lifestyle. Our boats are perfect for family and friends for a day at sea.

DUTCH ELEGANCE - SUBTLE POWER

The DutchTender 26 is our latest innovation with a sleek, but elegant design. A fantastic boat for a luxurious cruise with your guests, or a thrilling ride for the more active water sport enthusiast. The narrow bow, deep gunwales and flared bow provide excellent maneuvering, which can even stand up to the open sea. The beauty of the versatile DutchTender 26 goes further than its elegant lines, with its advanced performance and easy handling.
