AXOPAR 37 T-TOP

## AXOPAR 37 T-TOP

Promising unforgettable days on the water, the shaded Axopar 37 T-Top is perfect if you love water sports and like to sunbathe where possible. The design ensures your family and guests will enjoy that wind-in-the-hair feeling, but still arrive in cool comfort and true boating style.

With plenty of freedom to relax and move around, you'll find the uncluttered deck layout ideal for owners wishing to bring, for example, scuba-diving gear, or fishing tackle with them, most of the time.

There are seven fixed seats underneath a permanently fixed, rigid T-Top and with the fairly unique and versatile canopy option in place, this boat can still be used anywhere around the world, even in winter.

With 'queen-size' overnight accommodation for two from the standard double cabin, it's great to know you can embark on the occasional long-distance, overnight cruise to that favourite coastal destination or little known private and secluded bay.

## AXOPAR 37 SUN-TOP

With an extended length roof when compared to the T-Top, the Sun-Top version offers the most shade and weather protection possible, by way of a manually controlled, full-length Sunbrella canvas section, which can be upgraded to full electric control as one of our options.

Without compromising in any way on the space and versatility of the walkaround side and aft-deck area, the Sun-Top large bimini is fixed on sturdy mounts and successfully screens all seven seating positions and the central dining table in one.

While the Sun Top is every bit a long-distance, comfortable passage maker, the clever design nonetheless makes an ideal proposition for those who love 'al-fresco' dining whenever and wherever they can.

The three front row seats can swivel 180 degrees to make this a very sociable area around the table and there's always plenty of choice from our options list to enhance and upgrade your boat, including our fully plumbed Wet Bar option, or 20 litre capacity draw type fridge, which holds enough quantity of food & drink for all-day hospitality.

Before or after lunch, sit back and relax on the foredeck sunbed area and congratulate yourself on choosing such a cool and versatile boating brand.

## AXOPAR 37 CABIN

The Axopar 37 Cabin means business, a 'force of nature' as it were, with the fully enclosed cabin providing protection in both hot and cold climates, this offers a comfortable and roomy, no-compromise interior space that seats up to six around a large and sociable L-shaped dining table.

Whatever you want out of your boat this is a serious sports-cruiser and one that rivals many bigger craft from reputable boat yards around the world. The Axopar 37 has a large 730 litre (203 US Gal) fuel tank, giving a maximum achievable range of something in the region of 280nm in economical cruising mode.

So without having to find somewhere to re-fuel, this will potentially extend your radius of travel by up to 65%, or approximately 109 extra nautical miles, compared to the Axopar 28, for example.

Then at the end of a long and fulfilling day, the prospect of knowing you've a comfortable night's rest ahead of you makes the whole experience of owning an Axopar 37 Cabin extremely worthwhile.

And if you choose to install the additional double-berth Aft-Cabin option, then your children, or your grandchildren, or two of your closest family & friends can share in the fun of an overnight stay along with you.

MALLORCA, SPAIN  
AXOPAR 37 SPORTS CABIN

## AXOPAR 37 SPORTS CABIN

Cool looks and a fantastic driving experience from the Sports Cabin version make this a subtle rethink on the 37 Cabin, with a more streamlined, more sporty-looking outward appearance owing to a steeply raked front screen and surrounding cabin area.

Challenging the entire notion of cruising with a more expensive, raised fly-bridge equivalent, the enclosed Sports Cabin has a full length canvas top which fully retracts, along with side-opening doors, so that passengers still get a good sense of the outdoors, just as they do from our more exposed Sun Top and T-Top versions.

The interior layout offers the same potential for seating up to six people around an L-shaped table, but there have been more tweaks made inside the cabin too.

Found inside every Sports Cabin, for example, there's higher attention to detail, with a whole host of quality touches and improvements including a lacquered walnut wood interior, suede covered steering wheel, Nirrox 100% waterproof upholstery with white diamond patterned stitching and an electrically operated canvas roof as standard.

Configured from new either with or without our additional aft cabin accommodation option, turn up and turn heads with the Axopar 37 Sports Cabin.

## AXOPAR 28 OPEN

A perfect choice even for those who have never even considered buying an 8m motorboat up until now, the 'user-friendly' characteristics and safe & responsive nature of the Axopar 28 Open version make this an ideal first-time buy.

Six, comfortable forward-facing seats in two rows with individual bolster cushions for the front row, offer more pleasurable views than boats with side-facing equivalents, and the view ahead means that everyone onboard will see, feel and experience the same kind of exhilaration as if each person was sitting behind the steering wheel!

There's plenty of aft-deck space combined with additional stowage, making this model one of our most versatile and practical options within our range.

Use the Open version either as a family-fun tool for exploring beautiful coastlines and cruising undiscovered bays, or as an exciting dive-excursion boat, a wakeboarding or water-ski boat, or simply for blasting offshore to your favorite fishing reef.

And from an ultra-pleasant day-cruiser to an über-cool sports weekender, why not transform your leisure boating options in an instant, by specifying our aft-cabin, comfortable overnight accommodation package. With Axopar the final choice is always yours!

Day boating has never been as much fun until now!

AXOPAR 28 T-TOP

## AXOPAR 28 T-TOP

Sometimes having too much sun can be as unpleasant as not having enough, and Axopar thought about that when they designed the smart-thinking T-Top with large, canvas roof shade, mounted to a sturdy & permanent metal frame.

A highly versatile, multi-purpose, walkaround sports cruiser, form & function have fused together to create the Axopar 28 T-Top version, successfully screening the front and rear passengers from the less pleasant effects of too much sun.

Knowing you and your guests can now spend even more time on the water means the toilet and wash-hand basin and top-loading fridge options, for example, are the kind of useful upgrades Axopar offer to make life afloat that little bit more civilized. Ideal for those who live too far away from their boat to want to return home each night or perfect for those impromptu weekends away with your spouse or partner – our Aft Cabin option allows comfortable overnight sleeping accommodation for two, with the same space doubling as significant extra stowage capability, when not in use. For day long hospitality from a dedicated drinks serving area, our fully plumbed-in wet bar module is a clever touch that's bound to impress your friends with an end-of-day sundowner, or day-long supply of your favourite ice-cold beer!

Celebrate your time afloat with the smart-thinking Axopar T-Top.

## AXOPAR 28 CABIN

Less sportsboat, more Gran Turismo, the Axopar 28 Cabin opens up a world of possibilities for extended voyages and longer average journey times and with the Aft Cabin option, this is our biggest selling model so far.

With capability of seating up to five people within a bright and airy, full weather protected environment, there's ample incentive for an owner and guests to spend not just a few hours onboard, but several days and even weeks enjoying their Axopar Cabin version to the full.

The cabin does offer occasional sleeping possibilities for one or two, but customers find the Aft Cabin option is an even better solution for genuinely comfortable, dedicated overnight stays and drop-of-the-hat weekends away will soon become your boating norm.

Above the cabin there's a full-length Webasto manual sliding canvas roof that loves to be thrown open at any time and large, side-opening doors either side, mean there's natural light and ventilation always readily to hand.

Versatile by design, the walkaround side access and aft-deck in standard form is a large, flat and practical space that works well as a home for fishing, or water-sports activities and such-like.

As with other models across our range, the aft-deck can be configured either with, or without, an additional rear-facing bench seat and storage box, or for all-day hospitality, our dedicated drinks serving area and wet-bar module option is a must.

Go further and stay out longer with the Axopar Cabin.

## AXOPAR 24 RANGE

As the saying goes: 'if it looks right, it is right' and nothing could be closer to the truth when considering the cool looks and balanced proportions of the instantly recognisable Axopar 24 range.

There are three model options available, including an Open, T-Top and Hard Top version.

Each model has its own unique benefits, so your decision upon which model to buy will be based upon factors such as typical weather conditions in your region and what kind of boating you prefer to do.

Customers of all age groups find their Axopar perfect for a range of different reasons. Some customers keep their boat in a fully serviced marina, other customers use their boat as a daily commuter moored at the end of their garden. Some owners love to beach their Axopar on deserted island shore, while others prefer nothing more sophisticated than being a mile or two offshore, with a beer in one hand and a fishing rod in the other!

An inherently safe design due to the unsinkability of the polyurethane foam core, these are responsive and very manoeuvrable boats that are ideal for high-energy activities, such as water-skiing and wakeboarding, or for towing your kids around on inflatable tubes and sea biscuits.

Not having to rush back home at the end of a wonderful day, or having the hassle of trying to find overnight accommodation on shore is a wonderful bonus that every Axopar 24 owner will enjoy.

As with every Axopar, there are plenty of practical options to configure your boat for your own personal needs.
